WORK EXPERIENCE

Self Employed

Frontend Developer

📅 June 2020 - current

📍 Remote

- Using the knowledge I acquired during these years, build a portfolio with a good user experience and host it with GitHub Pages
- Build some landing pages and responsive websites trying to perfect and improve my skills
- Self-taught debugging best practises using Google Chrome inspect element tooling
- Tutored clients HTML, CSS, Flexbox and JavaScript best practises

APTITUDES

- Responsibility and compromise.
- Ability to make decisions.
- Ability to gather data.
- Communication skills.
- Team work
- Creativity

OBJECTIVE

After the training and learning acquired mostly on my own, I aspire to a job where I can demonstrate and improve my knowledge, in the company of a team and a work environment conducive to it. I am looking to introduce myself in the area of programming and I am ambitious for an opportunity in a large company.
